THE LIVING PRESIDENCY. *Emmet John Hughes.* A monumental account of the American Presidency, from Washington to Nixon. Emmet John Hughes emphasizes all the key aspects of life in the Oval Office: the roles of Cabinet and staff, the struggle for mastery of the bureaucracy, the lure of monarchic isolation, the ceaseless encounter with Congress, the complex interaction with the press, and the quest for public belief and trust. Henry Steele Commager has written: *"The Living Presidency* is quite simply the most original, the most thoughtful, and the most perspicacious book on the Presidency that I have ever read." Available June. $2.95

MY WAR WITH THE CIA. *Prince Norodom Sihanouk.* The former head of the Cambodian government reviews American opposition to his neutralist policies. $1.95

INDISPENSABLE ENEMIES. *Walter Karp.* This study of misrule in America shows how the two political parties collaborate with each other instead of competing. Available June. $2.95

THE DEATH OF COMMUNAL LIBERTY

A History of Freedom in a Swiss Mountain Canton

BENJAMIN R. BARBER

For centuries the group of alpine villages that make up modern Canton Graubünden has managed to maintain its remarkable political tradition of direct democracy. But assimilation into the wider context of Switzerland and Europe has brought this tradition of communal liberty into violent conflict with the forces of modernization. Combining political theory and history, Benjamin Barber's multifaceted study traces the growth, maturity, and decline of a political and social life-style that may offer a communitarian alternative to the Anglo-American experience of representative government as an increasingly alienating and stifling bureaucracy. $12.50

THE RULES OF RIOT

Internal Conflict and the Law of War

JAMES E. BOND

Riots, insurrections, guerrilla movements, civil wars—all forms of internal conflict are increasing throughout the world. There are laws to protect human rights in peacetime and during international conflicts, but no body of law protects those caught up in civil strife. James E. Bond focuses on this major question: How can we regulate civil guerrilla warfare? "A fine piece of work on a critically important problem."—Richard A. Falk $11.50
